

EEG IN THE ICU

1-DAY MEETING

There is growing interest and evidence that EEG is able to predict treatment and outcome in people on intensive care units. This 1 Day Meeting will discuss the use of EEG as a prognostic indicator on intensive care units.

- This event is accredited by the Royal College of Anaesthetists for 6 CPD credits.
- CPD accreditation is being applied for from the Royal College of Physicians (UK).

Austin Court, 80 Cambridge
Street, Birmingham, B1 2NP
